

RIF**FURY**

2026 FURY MSRP \$5,599** (+\$480 for XC upgrade)

The **RIF FURY** is the embodiment of our philosophy: *Ride It Fast*—or as some call it, *Revolution In Freedom*. Built for real riders who demand high performance with no compromises, FURY delivers precision, speed, and soul in every ride. Equipped with a **72V 26.5Ah battery**, it gives a powerful electric boost that makes the impossible feel effortless, whether you're charging up climbs, shredding singletrack, or tearing through traffic with a grin. Word spread quickly—roadies, gravel grinders, and downhillers alike couldn't believe what "the RIF" could do. With nothing but momentum and a zero-dollar budget, our crowdfunding campaign showcased real riders putting FURY to the test across all terrains, proving that this e-bike isn't just fast—it's a revolution. www.riderif.com/fury
